

Designed to Meet the Demands of Heterogeneous Storage Environments

Data Migration & Tiering ◆ Metadata Management ◆ Technology Refresh ◆ Active Archiving

Only StrongLink can manage both IN & OUT of the data path

Features

- ✓ Multi-Vendor, Multi-Protocol
- ✓ Cross-Platform Storage Management
- ✓ Global Namespace
- ✓ Metadata-Driven Workflows & Query
- ✓ Data Visualization & Analytics
- ✓ File Validation & Reporting
- ✓ Automated Data Lifecycle Management
- ✓ Dynamic Data Mover
- ✓ Rich Metadata, including User-Created
- ✓ Small File Optimization
- ✓ No Agents, No Stubs, No Symlinks
- ✓ Supports both IN & OUT of the Data Path
- ✓ Direct support for LTFs tape libraries from any vendor, with optional upgrade.

Benefits

- ◆ **Remove Complexity**
 - Reduces IT Burdens
 - Ease of Use & Install
 - Increase User Productivity & Collaboration
- ◆ **Reduce Costs**
 - Seamless Tiering & Archiving
 - Maximize Storage Efficiency
 - Immediate ROI
- ◆ **Enforce Data Protection**
 - Cross-Platform File Copy Management
 - One-Click File Recovery
 - Simplified Business Continuity & Disaster Recovery
